No.30A, Lake Road, Kalutara

PROFILE

Final-year Computer Science undergraduate at the Informatics Institute of Technology (IIT), affiliated with the University of Westminster, UK. Experienced in software development, cloud technologies, and deployment automation through a year-long Full-Stack Developer Internship at ICIEOS. Hands-on experience with AWS, Docker, CI/CD pipelines, GitHub Actions, Jenkins, Azure services, Python development and workflow automation using n8n. Passionate about DevOps practices, cloud infrastructure, automation, and building reliable, scalable systems. Currently learning Kubernetes, Terraform, and modern cloud-native technologies while continuously applying industry best practices.

EXPERIENCE

Full-Stack Developer Intern | ICIEOS (June 2025 – June 2026)

- Developed and maintained full-stack web applications using modern frontend and backend technologies.
- Designed and implemented RESTful APIs, integrating SQL and NoSQL databases to support application functionality.
- Integrated payment gateway solutions and developed secure transaction processing workflows.
- Implemented file and media management features using Azure Blob Storage and other Azure cloud services.
- Collaborated with cross-functional teams in an Agile environment while contributing to workflow automation and SEO optimization.

TECHNICAL SKILLS

- **Languages:** Java, Python, JavaScript, TypeScript, PHP, SQL
- **Frontend:** React, Vite, Next.js, Tailwind CSS, Bootstrap, Redux, HTML, CSS, Axios
- **Backend:** Spring Boot, Node.js, Express.js, FastAPI, RESTful APIs, WebSockets, JWT, RBAC
- **Databases:** MySQL, PostgreSQL, MongoDB, Redis, Firebase, Supabase, SQLite
- **DevOps & Cloud:** AWS, Azure, Docker, Jenkins, GitHub Actions, CI/CD, Nginx
- **Tools & Platforms:** Git, GitHub, Postman, Swagger, Figma, n8n, Jira, Stripe

SOFTWARE PROJECTS

Containerised Full-Stack CI/CD Application [\(Refer\)](#) [Deployed Link](#)

A full-stack DevOps project demonstrating automated CI/CD pipelines, containerisation, and cloud deployment of a Laravel REST API with a React frontend using Docker and Jenkins. The project includes automated testing, build validation, and zero-downtime-style deployment to AWS EC2 through a webhook-driven pipeline.

Tech: PHP · Laravel · React · MySQL · Docker · Docker Compose · Jenkins · GitHub Actions · Nginx · Python · AWS EC2

MediQueue — Clinical Appointment & Patient Flow Management System [\(Refer\)](#) [Deployed Link](#)

A full-stack healthcare system streamlining clinic operations with slot-conflict-aware appointment booking, real-time queue tracking, a doctor dashboard for consultation notes, an admin panel for managing doctors and departments, a notification and reminder system, and full audit logging with role-based access for admins, doctors, and patients.

Tech: FastAPI · PostgreSQL · Redis · React · Redux Toolkit · Axios · SQLAlchemy · Alembic · JWT

Imperial Fit - Innovative E-Commerce & Fitness Lifestyle Solution [\(Refer\)](#) [Deployed Link](#)

A modern full-stack fitness platform with personalized workout plans, progress tracking, a gym product store with Stripe payments, secure authentication via Clerk, and a motivational community feed wrapped in a responsive mobile-friendly UI

Tech: ReactJS · Vite · Tailwind CSS · Node.js · Express.js · MongoDB · Mongoose · Clerk · CORS · RESTful API · Stripe Payment Integration

Real-Time Event Ticketing System – Concurrent Web Application [\(Refer\)](#) [Deployed Link](#)

A multi-threaded ticketing engine where vendors release and customers purchase tickets across concurrent threads, with every transaction streamed live to a React dashboard via WebSocket featuring a thread-safe ticket pool, color-coded activity feed, and real-time metrics. Containerized via Docker with automated Jenkins and GitHub Actions CI/CD pipelines, integrated with Python health monitoring.

Tech: React · Spring Boot · Java · WebSockets · Docker · Jenkins · CI/CD · Python · Multi-threading

ForgeAI – AI-Powered Multi-Agent Personal Coaching Platform (Ongoing) [\(Refer\)](#)

AI-powered multi-agent platform where six specialized agents collaborate in real time using intelligent routing, tool calling, RAG-based memory, SQLite persistence, MCP architecture, and workflow orchestration.

Tech: React · Vite · Python · Flask · LangChain · LangGraph · Gemini 2.5 Flash · ChromaDB · SQLAlchemy · SQLite · MCP Protocol

EDUCATION

University of Westminster

BSc (Hons) in Computer Science 2023 - Present | Module Grades [\(Refer\)](#)

St.Peter's College Colombo 04

GCE Advanced Level (Maths Stream) — 2B's and 1C (2021)

CERTIFICATIONS

- Full-stack Engineering for Entrepreneurship - STEM Link [\(Refer\)](#)
- GitHub Actions for CI/CD; React Essential Training; Java Object-Oriented Programming; Spring Boot 2.0 Essential Training; Learning REST APIs; Amazon EC2 Essential Training; Running Jenkins on AWS: Deploying and Managing Jenkins on Cloud Infrastructure — LinkedIn Learning. [\(Refer\)](#)

TECHNICAL PUBLICATIONS

Getting Started with Docker for Fast MVP Deployments — [ICIEOS Blog \(Apr 2026\)](#).

Building Systems That Think, React and Adapt — [ICIEOS Blog \(Mar 2026\)](#).

Why Node.js + Express.js is the Ultimate Backend Combo Every Developer Should Master — [Medium \(Jun 2025\)](#).

React Hooks: The Game-Changer Every Developer Should Master — [Medium \(Jun 2025\)](#).

PROFESSIONAL SKILLS

- Effective Communication
- Teamwork & Collaboration
- Leadership & Project Coordination
- Agile Workflow Proficiency
- Time Management & Task Prioritization
- Problem-Solving & Critical Thinking
- Continuous Learning & Adaptability
- Attention to Detail

EXTRA-CURRICULAR ACTIVITIES

- General Member – Interact Club, St. Peter's College
- Member – IEEE Student Branch of IIT
- Member – Leo club of IIT
- Member – ICT Club, St. Peter's College
